- (1) Unless otherwise provided in these rules, an applicant may progress to another level of certification after ninety (90) days from the date of the last certification awarded. If an applicant fails a written examination for a level, the applicant must wait ninety (90) days before attempting a different level of certification.
- (2) The Commission may waive the waiting periods for progression for individuals called to active military duty during wartime to allow firefighters to achieve the level of certification that they would have been eligible to achieve should their firefighting career not have been interrupted by the military service. A letter from the fire department, signed by the Chief or Training Officer, certifying the individual's military duty must accompany the individual's application requesting this waiver.
- (3) Fire service personnel who have been certified at a specific progression level are prohibited from taking the examination for a lower (regression) level, except for as provided in 0360-03-01-02(9).
- (4) If an applicant who has already achieved certification at a particular level(s) under prior NFPA standards wishes to achieve certification for those levels after the date Tennessee becomes accredited, the applicant will be allowed to do so and the waiting period shall not apply. The applicant will be required to complete all the requirements for the level(s) of certification sought.

 - (c) the applicant has not been out of the fire service for a period greater than three (3) years; and
 - (d) the applicant has not previously failed a written or performance examination for that level of certification in the State of Tennessee.

- (5) For progression purposes in the Certification Program and for purposes related to Educational Incentive Pay, the date of recognition of the certification shall be used for "Date of Certification".
